

Thoughts of a
GROWTH MINDSET

My effort and
attitude determine
everything I can do

I can always
grow and
learn.

When
I fail, I learn

I can train my brain

Instead of
giving up,
I'll try it a
different way

Mistakes
make me better

I keep growing
my mind by
trying new things

When Plan A
doesn't work,
I try plan B

I can't do this... YET

I can learn
from mistakes

Mistakes
are proof
that I am
trying

I need to rethink
this and not give up

DO YOU HAVE A GROWTH MINDSET?
